## ABOUT ME

I am a fifth-year student at the "Archimede" technical institute in Catania. I possess a strong determination for cultural growth and work experiences in which I can concretize the knowledge and skills acquired during my secondary school years.

The strong motivation that accompanies any of my initiatives makes me look forward to the future, in the field of university studies and in the area of future work opportunities.

I am able to quickly fit into study groups, sports and all those social opportunities thanks to good communication skills, a strong inclination to active listening, predisposition to teamwork, and an excellent attitude to experience reality in a positive and purposeful way.

## ADDITIONAL INFORMATION

### Projects

**Enrollment University-Catania** After graduating from secondary school, I intend to enroll in the faculty of Industrial Engineering.  
My plan is to obtain a degree in engineering, with the best score obtainable, to specialize in Italy or outside my country, and to find occupation in Italy or in Europe.

### Hobbies and interests

**Sports and various readings** I am an amateur tennis player, practicing this sport for about two years with satisfactory results.  
In my free time I like to read fiction texts, but my preference is for literature and philosophy texts. I like to be with contemporaries, but I greatly appreciate the presence of adults with whom I love to engage in conversations that can be helpful to my personal, cultural and professional growth.

### Volunteering

**Various volunteer activities** Although I am not a member of any Volunteer Association, I happily make contributions to Associations and Private Bodies that request them.
