Hi, my name is Rosario Bella, I live in Catania, I am 18 years old and I frequent the 5th year of the Technical Institute
Archimede of Catania.
I chose this school because since I was a child, I have always a passion for technology and especially for computer science.
Among my passions, besides computer science, there is football, which I actively follow and practice.
I am a serious boy, cheerful, but when there is work to do I do my job in the best way.
I try to keep myself informed on the news of Politics and news both locally and internationally.

I am with own car, I like to work independently but also in a group.
I try to relate and stay in touch with my colleagues to help and / or improve myself and the people of the work group or group.
I can respect the established working hours and manage my time.

I really want to work and get involved.

Rosario Bella
